HOW SOUND IS OUR DOLLAR??

IN THE VALLEY OF THE MOON

Well. . . Well. . . Well. . . We've all heard the old expression, "As sound as a dollar". . . However, as a leaflet issued by a trust company points out, few of us have asked, "How sound is a dollar?" And the answer, obviously enough, is that the dollar is as sound as our national economy. . .

"Our national economy is sound. But there is no assurance that it will remain that way unless we think and act to make it so. A nation, like a person, must 'live within its means' or it will soon be in trouble."

The government is a reflection of the desires of the people. . . If the people want and demand economical government—government living within its means—and make their wishes known, they will get it. . . If they want spendthrift government, and a further degraded money, they will get that. . . These are the only choices. . . The political spenders will destroy the dollar unless stopped by the voters. . .

**Thank you,
The Publisher**

MOONBEAMS
